ANALYTICS
Getting Started

Available on the App Store

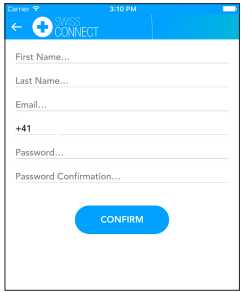
ANDROID APP ON Google play

STEP 1

Available on the App Store

ANDROID APP ON Google play

Download the free Swiss Connect Analytics application in the AppStore or Google Play Store.

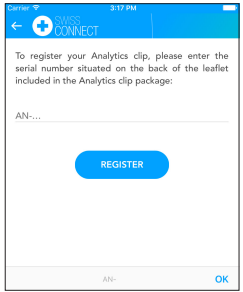


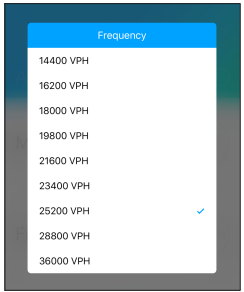
STEP 2

Create your
SwissConnect
Analytics account.

STEP 3

Register your
Analytics clip by entering
the serial number
(beginning with AN-)
at the back of this booklet.

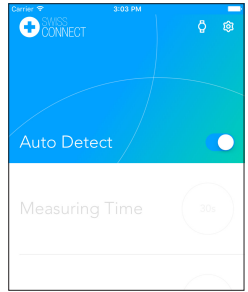




STEP 4

First select the frequency of your watch. The App supports a wide range of frequencies, covering almost all mechanical watches available on the market.

In case you don't know your watch's frequency, you may use frequency auto detect.

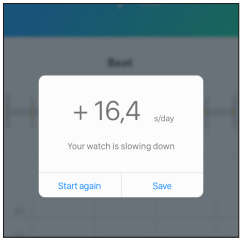


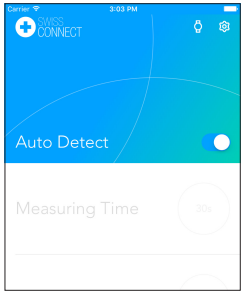
STEP 5

Place the ingenious Analytics Clip on your watch and launch the Analytics App.

STEP 6

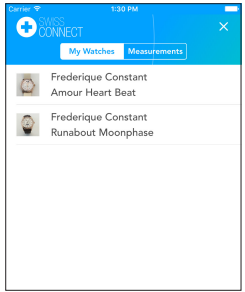
Done!
Your results will appear on your smartphone's screen.

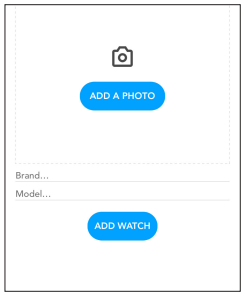




To add a new watch, touch the watch icon at the top right side of the screen.

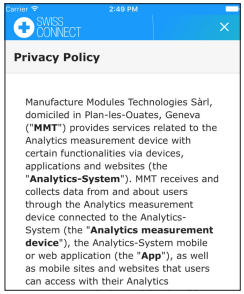
Select "My watches" on the top and touch the "Add a watch" button.





Enter your watch's details. You can also take a picture of your watch by selecting the "Add a Photo" button. When you've finished just click on "Add watch" and everything will be saved on your phone and on the cloud.

Your watches, measurements and preferences are synchronized between all your iOS and Android devices.



Your privacy is important to us, and we are committed to protect your personal information. In our Privacy Policy, we are letting you know about the ways we collect data.

You can use our Troubleshooting to help you identity and resolve problems you may be experiencing with your SwissConnect Analytics.
